ONE OF THE POLK DIRECTORY LIBRARIES

This Little Library Can Answer 945,000,000 Questions

**MANY TRIPS AT YOUR FINGER-TIPS —
SAVE MANY MILES, MINUTES and DOLLARS**

There are over 425 of these directory libraries in the United States. They are installed and maintained by the Association of North American Directory Publishers as part of the service given to directory advertisers.

Think what this means to you in effort, time and money saved. You want to know the relationship of the signer of a letter to the firm he represents —the directory library has the answer; someone you vitally need to get in touch with in a distant city has moved; business addresses or firm names have changed—the directory library has the answer. Public officials have been replaced by new elections; location of real estate is desired—again the directory library holds the answer.

Of course you could write or phone for the data you desire, but maybe you don't know just who to approach—the directory library has the answer.

This service is free, for single reference, to the public.

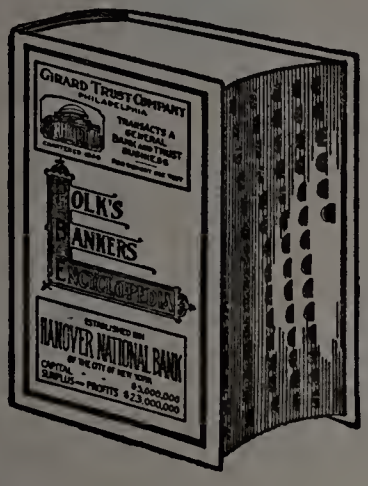
THE BANK DIRECTORY OF THE WORLD



Polk's Bankers Encyclopedia

MOST CONVENIENT AND COMPLETE BANK DIRECTORY

Polk's Bankers Encyclopedia, issued semi-annually in March and September, is compiled for the use of bank executives, brokers, collection and credit men, manufacturers, merchants and industry generally. It covers completely and accurately the banking field throughout the whole world, giving the names of officials and directors, resources and liabilities in detail.

ISSUED IN TWO VOLUMES

VOLUME ONE—Devoted to the United States, U. S. Possessions, Canada and Bank Laws.

VOLUME TWO—FOREIGN SECTION—Devoted to Banks and Bankers Throughout the World. (Except the United States, U. S. Possessions and Canada).

The FOREIGN SECTION, included without additional cost to subscribers of POLK'S BANKERS ENCYCLOPEDIA, is the only complete list of its kind.

Price $15.00 per copy

In Canada and Foreign Countries $20.00

INTRODUCTION

R. L. POLK & CO., publishers of the Astoria City and Clatsop County Directory, as well as more than 700 other city, county, state and national directories, present to subscribers and the general public, this, the 1934 edition of the Astoria and Clatsop County Directory.

Confidence in the growth of Astoria and Clatsop County's industry, population and wealth, and in the advancement of its civic and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting the community to the world.

The enviable position occupied by R. L. POLK & CO.'S directories in the estimation of the public throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Astoria and Clatsop County Directory will fulfill its mission as a source of authentic information pertaining to the city and county.

Populaion

The estimated population of the city of Astoria is 10,850, based on the number of individual names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

Six Major Departments

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE, pages 13 to 32, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Astoria and Clatsop County. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers eager to familiarize themselves with sources of supply. The community's activities in many interesting plases, are authentically pictured. In an ambitious and progressive community like Clatsop County, the necessity of having this kind of information immediately available, is very great, and frequently pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Astoria is included in pages 35 to 173. A feature of this section is the inclusion of the wife's name in parentheses following that of the husband. In pages 215 to 260 appears a directory of the smaller cities, towns and post offices of Clatsop County, arranged alphabetically by towns.

THE ASTORIA DIRECTORY OF HOUSEHOLDERS, TENNANTS OF OFFICE BUILDINGS, AND OTHER BUSINESS PLACES AND STREET AND AVENUE GUIDE, pages 175 to 214.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 261 to 308. This department lists the various manufacturing mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the busiess interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE CLATSOP COUNTY TAXPAYERS' DIRECTORY extends from page 309 to 313.

THE CLATSOP COUNTY RURAL ROUTES DIRECTORY, covering the routes served by the Astoria, Seaside and Warrenton post offices, is included in pages 315 to 324.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Astoria and Clatsop County, for business men, everywhere, realize that the city directory represents a community as it really is.

The Astoria Directory Library

Through the courtesy of the publishers of the Clatsop County Directory a Directory Library is maintained in the offices of R. L. Polk & Co., 325 Artisans building, Portland, Ore., for free reference by the general public. This is one of moe than 425 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

Capacity of water works (municipal) 5,000,000 gallons daily with 42.8 miles of mains and plant valued at $1,009,099.85. Fire department employs 15 men, with 1 auto, 1 triple combination machine, three hose and chemical wagons and 1 hook and ladder truck, in 3 station houses. Police Department has 9 men with 1 station and 4 pieces of motor equipment.

ASTORIA, "HOME OF THE KING CHINOOK"

Astoria, the county seat of Clatsop County, is located but ten miles from the mouth of the Columbia River, in the northwestern corner of the State of Oregon. Astoria is of greater commercial importance than indicated by its population as it is the trading, financial and shipping center of the Lower Columbia River District of northwestern Oregon and southwestern Washington.

The known history of the Lower Columbia River and Astoria begins with the discovery and naming of the Columbia River by Captain Robert Gray on May 11, 1792. The Lewis and Clark expedition was the first exploring party to reach the mouth of the river by the overland route, arriving on November 15, 1805, and spending the winter of 1805-1806 near the present site of Astoria. In 1811 the Pacific Fur Company made the first permanent settlement and named their trading post Astoria in honor of John Jacob Astor, principal stockholder of the company. They had expected to establish a chain of trading posts throughout the territory but the War of 1812 and consequent lack of government aid and support forced abandonment of the enterprise and the post was taken over by their British rivals, the Northwest Fur Company and renamed Fort George. By the treaty following the war, the entire Northwest country was made subject to joint occupancy by England and the United States. The number of American permanent settlers increased so rapidly and the demand for a stable government became so insistent that in 1846 the long dispute over ownership was finally settled by fixing the 49th parallel as the boundary between the two countries.

Today Astoria is widely known as the most modern city in the Northwest. Its former picturesque old business district was completely wiped out in a disastrous fire which completely burned over forty square blocks a decade ago. From its ashes arose a group of modern fireproof business blocks, hotels, theatres, and office buildings, wider streets with underground wiring and ornamental lighting to make a business district which always excites the visitor's interest by its cleanliness and modern appearance.

Astoria's largest industry derives its life from the sea which lies at her western door, and the great Columbia River which bounds the city to the north. Each year the tremendous silver hordes of Royal Chinook salmon drive their way into the Columbia river, called by an irresistible instinct to ascend its reaches and spawn in the waters where the big fish once lived as tiny salmon fry.

The fishing industry brings in about $6,000,000 annually and supports thousands of persons. Astoria is the hub and center of the Columbia river fisheries industry and to her long rows of canneries come fish from all reaches of the river and from trolling boats that sweep the Pacific coast line from the California border to as far north as Puget Sound.

The fish are caught by fishermen laying out and hauling in their seines from small boats in the Columbia River, by trollers with hook and line on the Pacific Ocean, by fish traps along the shores and by huge drag seines operated from sand bars in the river, where horses are used as the motive power to pull in the seines. This latter method is of great interest to visitors as it is probably the only "horse fishing" in the world. Fish are either canned, frozen, mild cured, kippered or smoked and are shipped to markets all over the world direct from the excellent shipping facilities available at Astoria. By-products of the fishing industry include the production of medicinal oils, commercial fish oil, fish meal and processing eggs for bait.

Clams and crabs form the basis of other important branches of the fishing industry and are shipped fresh or canned to ever widening markets.

The nationally known Pillsbury Flouring Mills operates a big, modern mill at Astoria, supplying their Pacific Coast trade and also shipping to Atlantic Coast and foreign markets.

Astoria is conveniently located in relation to the largest stands of timber remaining in this country. Besides the timber still standing and areas being re-forested in Clatsop County, that of southwestern Washington is available. A system of ocean transportation of log rafts has been developed and the timber adjacent to Oregon's coastal streams now finds its largest market in the Columbia River lumber industry.

The Astoria district may well be called a "Cow's Paradise." The mild climate keeps pastures green throughout the year. Snow is very rare. The dairy industry has an annual value of $2,000,000. Astoria manufactures its own dairy products, producing butter, ice cream, cheese and powered milk, all from raw materials from Clatsop county. Poultry raising is also making rapid progress, due to the availability of cheap logged off land, the mild climate and the abundance of green feed. Other important agricultural specialties developed in recent years are cranberries, bent grass seed, bulbs, fresh vegetables, among the latter Clatsop County fresh peas being shipped in carload lots to eastern and mid-western cities.

Some of the finest shipping facilities on the Pacific Coast are available to local industries in docks owned and operated by the Port of Astoria, a municipal corporation. The Port Terminal includes three piers with large fireproof warehouses and specialized cargo handling equipment.

The climate is mild and equable, the mean temperature over a period of 40 years being 50.9 degress F. The mean maximum for the same period is 57.9 degrees and mean minimum 45.2 degrees. The highest temperature recorded in this period was 97 degrees and lowest 10 degrees. There are many winter seasons with practically no freezing weather. The temperature seldom rises above 90 degrees or falls below 30 degrees. The annual average rainfall for a period of 70 years is 77 inches. The average number of days annually with more than .01 inch of rain is 192. Astoria has more clear days and fewer cloudy days than other principal cities of Oregon. These are a few of the outstanding evidences of the mild and equable climate of Astoria which reacts to the great benefit of agriculture and which is an important contributing factor in making Astoria a delightful place in which to live.

Astoria is the center of a vacation wonderland. At its doors are the Oregon coast resorts, Seaside, Gearhart, Cannon Beach, and a long list of other famous resorts.

The history of the Lower Columbia River is depicted upon a massive, heroic column erected jointly by Vincent Astor, great-grandson of John Jacob Astor, and the Great Northern Railway. It is 700 feet above Astoria, 125 feet high and sub-structure is built of concrete covered with a plastic substance. There has been etched in colors into the column spiral figures seven feet high, the progressive, historical facts beginning with the primeval wilderness and extending to the coming of the first transcontinentl railway train. An interior staircase leads to the apex of the column whence a magnificent panorama of many rivers, mountains and forests may be viewed.

Copyright, 1934, by R. L. Polk & Co., Portland, Ore.

Airplane view of Astoria showing its location between the Columbia River on the north and Young's River on the south.

Astoria and Clatsop County offer attractions for the homeseeker, tourist and vacationist.

Clatsop County agricultural products have earned national fame for quality.

Astoria is the center of the picturesque and interesting Columbia River fishing industry.

Cool and refreshing ocean breezes bring thousands to Clatsop County beaches. All beach resorts are but a short drive from Astoria via the Oregon Coast Highway.

For information on Astoria and Clatsop County, address

TRADE! You Like

to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

R. L. POLK & CO.

PUBLISHERS

POLK'S
ASTORIA
Directory of Householders
Occupants of Office Buildings and Other Business Places
Including a Complete
Street and Avenue Guide
1934

Copyright, 1934, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

Numerical Streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The city of Seaside (also called Clatsop Beach) has an ideal climate the year around, unexcelled boating and bathing facilities, splendid hunting and fish (both fresh and salt water), that combine to make it one of the most popular summer and winter resorts on the Pacific Coast. Located on Clatsop Beach at the junction of the Necanicum and Wahanna rivers, 117 miles via Columbia River route west of Portland, and 78 miles by the Wolf Creek road (now under construction), and is the terminus of the Spokane, Portland & Seattle Railway. Seaside is the most important beach resort in the Pacific Northwest on the Pacific Ocean. Seaside has a standing population of 1,565 (1930 census) with as high as 20,000 during the summer months. One of the finest municipal water plants is located at Seaside, the water of which flows from mountain springs at the head of the Necanicum River and Beerman Creek. Although small in population, Seaside presents a metropolitan air at all times and is bustling with business the year around. Several large concrete buildings have been erected the past year and plans are under way for the erection of more during the winter. Seaside has, aside from the above improvements, six miles of pavement, an electric light and power plant, gravity city water systems, best of schools and churches. The outlook for Seaside as a commercial center is promising, as at present there are large timber tracts being cruised for logging and three large logging crews are at work the year around in the vicinity. Seaside has a weekly newspaper, the Seaside Signal, saw, planing mill and box factory. There is room for several more, as the timber is inexhaustible. The scenery in and around Seaside is unsurpassed anywhere and the climate is mild in winter and cool in summer. Best of telephone and telegraph service, modern hotels at all points on the beach, fine auto livery accommodations and several passenger trains both ways to and from Portland makes Seaside the place to spend the summer months.

WARRENTON. An inc city within the Port of Astoria on the S P & S Ry bounded by Youngs Bay and the Lewis and Clark River on the east, the Columbia River on the north, the town of Hammond and the Pacific Ocean on the west, has a navigable channel in the Skipanon River through the center of the city to the Columbia River. Population 700. The city owns a gravity water system with a main line about twenty miles in

WARRENTON—Continued

length and supplies water to the Clatsop Beaches, the homes on the Clatsoy Cranberry Tracts, the town of New Astoria (Hammond), the Military Reservation at Fort Stevens, and to the industries and inhabitants at Warrenton.

The industries are saw mills, planing mills and canneries operating in season.

The citizens at special election, created the Department of Public Docks, investing the Council with power to carry out the provisions of the act and to aid in the locating and establishing of industries.

The Advertised and the Unknown

A perfect gentleman may be hidden beneath the rags of the homeless and nameless man who comes to your back door. It is possible, but not probable, for if he were, he would produce some identification.

In the stores, unknown and unadvertised goods that are offered may in the same way be of as good quality as the advertised articles, but if they are, would not the manufacturer be proud to make the facts known to the world?

The advertisements in these pages are those of business institutions who are glad to proclaim the articles they sell or the services they offer. Bring into your home only those articles whose merit is known and vouched for.

Read the Advertisements

BLOODLESS SURGERY NATURAL MEDICINE
DR. WILLIAM A. TURSKA
Naturopathic Physician and Surgeon
Suite 215 Astor Bldg. Phone 402 Astoria, Oregon

Too Late For This Issue?

- Then arrange NOW to have your name properly listed and your business classified and cross indexed in the next edition of your City Directory.

- The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

- Put "We are listed in the Directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly listed under all headings in the directory that describe its product, is wise.

Investigate the City Directory, the book of many uses

The Alphabetical Section---

A guide to the population, its activities and addresses.

The Buyers' Guide---

To the commercial, professional and industrial interests.

The Classified Section---

A guide to the many business interests, arranged under typical headings.

The Householders' Guide---

A guide to the streets and avenues and the residents and tenants thereon.

The Guide Post to the City.

Is Never Further Removed From You Than the Nearest City Directory

Anything and Everything you might wish to learn as regards the civic, social, commercial or industrial life and phases of the community is therein, at your finger tips, in a concise, correct, non-partisan, and detailed manner. The information is completely standardized in order that it may be just as easy for you to find what you wish to determine in any City Directory, as in the Directory of your own city.

For free access to the books of other cities visit the nearest City Directory Library. A list of the City Directory Libraries, together with a privilege card will be sent you upon request to

R. L. POLK & CO.

POLK DIRECTORY BLDG.

431 HOWARD ST. DETROIT, MICH.

This Publication Is The Product of a Member of

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business unlift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

City Directory Don'ts

DON'T put your Directory in an out-of-the-way place, but keep it where your customers can see and use it without stopping someone to find it.

DON'T think that a Directory is paying for itself unless you use it, any more than an idle clerk can make you money.

DON'T look mad when a customer asks to look at your Directory.

DON'T look happy when a neighbor wants to borrow your Directory, for if you do, he will borrow it again, and if all were borrowers, when would the next Directory be published?

DON'T forget that an up-to-date city must have a Directory; and a merchant that has no Directory is what?

DON'T forget that a Directory borrower today will forget to return it tomorrow and you will call him what?

DON'T forget that the man who has a Directory pays for it and the borrower gets for nothing what another man pays for.
